

Musher's Camp Quest

Difficulty: Medium

At the Musher's Camp, three cheerful weavers—Isaac, Nukka, and Sila—each finished a different winter piece (Wool, Fur, Felt) and stained it with a different dye (Blue, Red, White). Figure out which weaver made which fabric with which dye. Each weaver has exactly one fabric and one dye, and each value is used once.

Clues

1. The Felt piece was dyed Blue; Isaac did not weave the Felt cloth.

2. Nukka used neither the Red dye nor wove the Wool fabric.

3. Sila did not use the Blue dye, and the Fur garment was not dyed Red.

4. Isaac did not weave the Fur garment.
